5630 Fishers Lane Room 1061

Dear Jane:

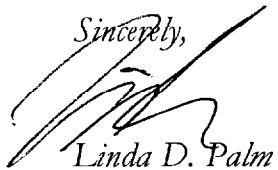

I strongly support the Citizen Petition (Docket #00P-1211/CP1), and I want to see Genetically engineered foods tested and labeled!

I believe the most organic, most nutritious, least processed, and most natural foods are the best for us.

And I want to know what I'm buying.

Please put your support in favor of the Citizen Petition noted above.

Sincerely,

Linda D. Palm
